Polar Racing Cars Launches Website With Round Win!

Sydney, New South Wales – August 04, 2005 – Polar Racing Cars has taken its debut round win at the latest NSW State Championship round held at Oran Park Raceway on July 30-31, 2005.

Glorious Sydney weather created the perfect backdrop for what was set to be a stellar event at Oran Park for Polar Racing Cars. With over 40 Formula Vee entries racing in preparation for the upcoming 40th Anniversary Formula Vee Nationals, the #67 Factory Polar was stead in good company with the likes of David Cutts and Ryan Simpson.

After a pleasing qualifying result, the weekend lived up to building expectations as Mark McHenry drove the Polar Racing Cars team to a second place and two race wins. “The car has shown promise in previous race meetings, but developmental issues have delivered mediocre results,” said McHenry. “This weekend the team has pulled everything together to find the result we were looking for, and to reach such heights in as little as six months is overwhelming. But the most encouraging aspect is the further potential of the car, and as we continue development we know there is more speed to be found.”

To compliment and celebrate this momentous occasion, Polar Racing Cars is pleased to launch its corporate website, www.polarracingcars.com.

Competitive racer Darren Mason, and upcoming star and leader of the 1200cc State Championship, Mitchell Abrahall will join Polar Racing Cars in 2006, adorned in their new RW05 Polar's. With two customer orders currently in construction and a round win under its belt, Polar Racing Cars looks to a bright future.

See the Polar Racing Cars factory team at Round 6 of the NSW State Championship at Eastern Creek Raceway on 24-25 September 2005. Please direct any further queries to Ms. Toni McHenry on (02) 9891 4419 or toni@polarracingcars.com
